

Kosha Seal-Pack®

More Value For Less Price

Mini Vacuum Sealing Machine

This is a compact, portable machine, ideal for small users, who need vacuum packing for their products. Removes the air from the pouch / bag before sealing. This machine is economical & best for house-holds, shops, supermarkets, small industry, light packing.

(Not for industrial use).

Absence of air in pouch ...

- Increases shelf-life
- Avoids spoilage
- Reduces volume of the product
- Removes moisture in pouch
- Stops rusting (for metal items packing)

TECHNICAL PARAMETERS

Sealing Length	Upto 280 mm
Seal Type	2 Lines (Double Heater)
Machine Body	ABS Plastic
Sealing Duration	0 to 9 seconds
Heat Sealing Power	650 W
Vacuum Limit	0.35 Kpa
Machine Size (L x W x H)	350 x 140 x 70 mm
Machine Weight	2.3 Kgs.
Ideal Pouch Type	PP / PVC film, laminates, foils

Operation System :

After inserting pouch in vacuum nozzle of machine, the sealing jaw is pressed down & the bag is locked in the sealing jaw. Then upon pressing red switch, vacuum process (of pulling out air starts). Small pump in machine withdraws the air from the pouch. Once it is seen that vacuum is complete, push centre press - bar & the sealing gets done, as per timer set. Once seal is completed, machine emits beeping sound.

Vacuum Sealing is done - As easy as that !

• Quality Service Guarantee

- Spares of all machines ready stock available.
